## SCHOOL FOOKS

The publishing I was of Bancroft & Co of San Francisco has usued a new squestof school readers, which is offered to the people of Orereaders, which is offered to the people of Oregon. The series is a furly good one, and if m is in our schools there would be no good reason for change. But the series how in the said good, and we have many protests from the people against any change these hard times. Bangroftld. Co are circulating widely an emborate document to show the people of Oregon that they would save a great coal of money by throwing away their present school books and buying new ones from their. Publishers who make this offer real if "explainers," and are all make this offer call it "extrange," this are al ways able to figure out a profit in it for the pub-lic. But the people of Oregon have had exper-ence with this kind of thing, they have tred it ence with this kind of thing, they have tried it several times, and have always found it costing them a great deal of money. There is no juggle of figures that can effect a saving of money in these cases. The principle of all exchanges is the same. A family has sex children and six books. The books can all be used if no change be made but if a change is made the family must have six ten ones. We have seen a number of circulars and documents about this has these, but what we have not seen is some this business, but what we have not seen is some evidence that the children of he state are not now learning to read well enough, or that they could learn any better were a new series of readers put into their hands. The fact that nobody has heard the subject mentioned until the time is just at hand for the superin tendents to vote would seem to indicate that ex-explody has been satisfied except publishers whose books are not used. Were the new Ban write motes are not used. Write the new had croth series in our schools we shiplid appose the substitution of any other series for it, and likewise an impartial regard for the public interests requires us to voice the public protest against the substitution at this is ne of the Bancroft or may other series for the one now in use thir people are poor just now, and school book publishers would oblige if they would kindly let

NEGRO BAVISHER LYNCHED

TUTON, Mo., Cct. 14.—As a 10 pear old girl named Benneth was walking with hyounger sister past a combe d near Guthrie, ien miles fr in here, resterday noon, one of three negroes working in his field, served the child and ravished her. The little sister carried the alarm home, and a posse of citizens organized immediately. All the negroes were found in the field, armed with corn knives and a gun. They made a show of resistance, but if raily surrendered, and were taken to futbrie and rut under guard. At 3 o clock this morn ig a party of mounted men rode to the place where he negroes were confined, and dired at them through the windows one of the negroes ran into the street, and was ghot dead. The others were again fired upon, and the ravisher fell down, and was left for dead. The party then rode off. Investigation showed that the ravisher had telgnad death. The survivors were taken to fail to-day, but, it is expected, will be lynched to-night.

BAILBOAD NOTES

The fatal rapidity with which slight colds and Coughs frequently developinto the gravest maislife of the threat and lungs, is a consideration which should impel every prudent person to keep at hand as a household repledy, a bottle of AYER'S CHLERY PEC ORAL.
Nothing else gives such mmediato relief

The samp op nion is expressed by the well-d nown I r L, J, Addison) of chicago, III, who says — III, who says — III, who says — III have nover found in volety five years of continuous sindy and practice of mode cine any preparation of so great-valge 3.4 Arms Currant Pectorate, for treatment of diseases of the threat and lung: I into the p breaks up colds and drive seve e coughs by its more effective than anything is a nellecting even the most serious broughtful and pulmi-mary affections.

err ectora Is not a new claimant for popular confidence, but a m dume which is to-day saving the lives of the kilrd generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy his quee been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trul for any thront or lung distant succeptible if cure, who has not been made well by it.
